

Holy Cross Catholic School 1:1 Laptop Learning Program Technology Support Fee Agreement Form

One of the requirements of borrowing a laptop computer for the 2016-17 school year is to pay a Technology Support Fee of \$50. This is an annual fee and will be used to cover insurance costs, upgrade costs, and general use costs.

The insurance will cover *accidental* (a circumstance beyond the student's control, i.e. robbery or fire) loss or damage with a \$250 deductible, payable by parents. If the laptop is damaged due to *negligence* or *carelessness* (a circumstance that could have been avoided, i.e. leaving the laptop on the bus or dropping it in water, etc.) parents will be responsible for the full laptop replacement cost.

Accidental insurance coverage is in effect from the date the laptop is issued to the student through the end of the current school year. The laptop will not be issued until this form is signed and the Support Fee is received.

It is agreed and understood that:

- > The total Support Fee is \$50 per school year and is not refundable.
- > The Technology Support Fee is mandatory.
- > Insurance will only cover accidental loss or damage.
- > Parents will be responsible for laptop replacement cost due to negligence or carelessness.
