

# CITY X PROJECT

Humans have just landed on an alien planet, and they've staked out an area for their first city, City X. But building a new city is difficult work, and they're beginning to identify some challenges relating to health, safety, communication, transportation, and more—problems that they need help to solve.

Now the Citizens of City X are sending transmissions back to Earth, describing the challenges they're facing. It's up to the young designers and innovators of Earth to invent solutions to these problems and help create a thriving City X by using a 3D printer.

If you are in grades 4-8 and would like to help the Citizens of City X create their new city, become a City X citizen 2 hours a week, for four weeks! City X Mayor Carol Moore will hold citizen meetings every Tuesday, October 25 - November 15 from 3:30 - 5:30 in Tech Lab #33.

To become a citizen of City X complete the census form below and return it to Mrs. Carr, in the office, by October 20<sup>th</sup>. City X is small in area, so the maximum population is 8 community members. Citizenship will be based on a first come, first served basis.

**CENSUS FORM**  
(due to Mrs. Carr by October 20, 2016)

Student's Name: \_\_\_\_\_

Current Grade level: \_\_\_\_\_

Citizen Meetings will be from 3:30 - 5:30 on the following dates:

- Tuesday, October 25, 2016
- Tuesday, November 1, 2016
- Tuesday, November 8, 2016
- Tuesday, November 15, 2016
